DEATH HAS ENDED WARDELL TRAGEDY

LOS ANGELES, Calif., Dec. 2.—The wife of General Wardell, who was afflicted with leprosy, is dead. Her demise closes a tragedy that has attracted widespread attention. Wardell lived for a long period with his wife in an isolated hut. They came into public notice through his death and her insanity. After her husband's death the woman was driven from place to place and finally landed in the Los Angeles County Hospital, where death has happily come to her relief.

Fightless Capture Of Haytian City

PORT AU PRINCE, Hayti, Dec. 2.—Citizens have revolted and taken possession of the city without fighting. President A. is practically a prisoner in his palace and threatened by a mob.

The foreign Ministers have taken refuge in their Legations, and American and French guards have been landed from warships in the harbor.

Legitime has been declared Provisional President and a rebel army under General Simon is near the city.

Biggy Had Resigned Before He Disappeared

SAN FRANCISCO, Calif., Dec. 2.—Police Commissioner Kiel states that Chief of Police Biggy had tendered his resignation previous to his mysterious disappearance Sunday night.

Prague Martial Law

PRAGUE, Bohemia, Dec. 2.—Martial law has been declared, owing to the race riots between the Czechs and Germans having reached such serious proportions.

All Were Lost

KORE, Japan, Dec. 2.—The steamer Ginsen Maru has foundered at sea and all on board lost.

Holiday Neckwear

We are ready for the Holiday Rush. We are stocked up with the handsomest line of fine ties and cravats ever made.

The wife's Christmas present of a tie to her husband is always appreciated and we would like to see the man who would not be proud to wear any one of the ties we show. You just cannot make mistake in selecting them.

JAPANESE PLANS FOR PINE INDUSTRY

Intend Exporting Local Farm Produce To Japan

One of the most important problems that the Japanese pineapple planters are endeavoring to solve is that of the employment of a competent chemist to come here and analyze the soil upon which the pines are growing. There are many Japanese farmers who want to make the pineapple growing their principal industry, but as they do not quite know the condition of the soil, they make very few attempts to go into the business.

S. Ozaki, one of the most successful Japanese merchants, who has an interest in the pineapple culture in Wahiawa, is in favor of securing the services of a competent chemist and agriculturalist to come here to assist the pineapple planters. K. Ioshima, another well-known Japanese merchant, who is interested in pineapple growing, is also in favor of the proposition. It is generally said among the Japanese planters, that they have already found the pineapple industry a profitable enterprise. They are now considering the way by which they

Dry Dock Bids Next In Line

Within the next two months bids will be called for the construction of the big drydock at Pearl Harbor. The dock will be one of the most important features of the Naval Station equipment and will probably cost something like \$2,000,000.

An appropriation of \$300,000 toward the construction of the drydock has already been made by Congress. The maximum cost of the dock is placed at \$2,000,000, however, so it is within the power of the Navy Department to let contracts up to the full amount specified as the maximum.

With the money already in sight, and the Navy Department anxious to have the Pearl Harbor Naval Station ready for use at the earliest possible moment, it is considered likely that the bids for the work will be advertised just as soon as the plans and specifications can be completed.

Particulars concerning the design of the proposed drydock are being kept very quiet, and nothing will be made public concerning the project until the bids are called for, probably.

It is known that the Navy Department is determined to have the Pearl Harbor Naval Station one of

R. D. Meade In New Work

Bureau of Labor and Statistics Started For Sugar Industry

The Hawaiian Sugar Planters' Association has established a new department of Labor and Statistics that will be in full swing as soon as R. D. Meade can get his plans in working order.

The work that the new department of the Association is to take up is of the utmost importance and assures a more exact and comprehensive supervision of the labor conditions on the plantations than has been the rule in the past. The statistical work will have a wide scope and cover every phase of the sugar industry.

Royal D. Meade severed his connection with the law firm of Smith & Lewis on the first of December to take charge of this Bureau of Labor and Statistics. He will open independent offices in the fourth floor of the Judd block and employ a special staff of assistants as required.

Mr. Meade is especially well fitted for the important duties he has assumed. He has an intimate knowledge of the conduct of the plantations and the peculiar labor conditions on each property. He is an enthusiast for efficiency in labor and has been one of the supporters of the homestead scheme for getting families permanently located on the land where they are able to make a living. He is an expert statistician and will unquestionably develop the new department to the highest state of efficiency and practical usefulness.

HONOR ANNIVERSARY

The sixtieth anniversary of the accession to the throne of His Apostolic Majesty Francis Joseph I, Emperor of Austria and King of Hungary, was remembered today by the display of the flag of that country at the business house of Schaefer & Co., P. A. Schaefer being the acting Austro-Hungarian consul. The big flag was flying from the Capitol staff in honor of the occasion and at all the consulates flags were shown.

***** the most complete in the United States, however, and it is therefore considered certain that the drydock will be of sufficient capacity to accommodate vessels of almost any class.

No estimate as to the probable time required to complete the drydock, after work has been begun, has as yet been made public, but it is supposed that the plan is to have the dock ready for use by the time the dredging is completed and the harbor is in a condition to receive and shelter the big ships of the Navy.

IRWIN IS NOT IN HOLD-UP GAME

Will Sell Whole Block At Same Rate As Site

"I find that a most unjust statement is going about the town regarding Mr. Irwin's interest in the remainder of the Palace Square block, not given over to the Government for the Federal building," said Attorney H. E. Cooper today in referring to the public building talk.

"Mr. Irwin under the term of his agreement with the Government will sell to the Government: any portion of the block not taken for the Federal site at the same rate as that made in the original offer of the site. That is, Mr. Irwin cannot, even if he were so disposed, hold up the Government by putting an exorbitantly high price on his adjoining property in the block.

"As for the Opera House, Mr. Irwin owns only one-fourth of that property. Three-fourths is owned by J. D. Spreckels. This is not included in the site, and Mr. Irwin could only act as a minority holder."

Pretty French governess calls James Gordon Bennett papa, thus revealing love romance of his early life.

Ryan Says Law Was Violated

T. J. Ryan, defeated Democratic candidate for Treasurer of the County of Hawaii, has registered a large-sized protest with Secretary of the Territory E. A. Mott-Smith because, as he says,

U.S.-Japan Agreement Conditions Given Out

LOCAL CONSUL GENERAL RECEIVES COPIES OF OFFICIAL CORRESPONDENCE—NO REFERENCE MADE TO IMMIGRATION IS IMPORTANT INTERNATIONAL MATTER

The Japanese Consul General has received from the embassy in Washington a copy of the official correspondence which passed between Secretary Root and Ambassador Takahira in relation to the agreement which was recently entered into between Japan and the United States. The ambassador's letter to Root gives a resume of the contents of the agreement, and is therefore of great interest, especially to the community of Hawaii.

The letters read in full as follows: "To Mr. Root: "The exchange of views between us which has taken place at the several interviews which I have recently had the honor of holding with you has shown that Japan and the United States holding important outlying islands in the Pacific Ocean the Government of the two countries are animated by a common aim, policy and intention in that region believing that a frank avowal of that aim, policy and intention would not only tend to strengthen the relations of friendship and good neighborhood which have immemorially existed between Japan and the United States, but would materially contribute to the preservation of the general peace."

"The Imperial Government have authorized me to present to you an outline of their understanding of that common aim, policy and intention. "(1) It is the wish of the two Governments to encourage the free and peaceful development of their commerce on the Pacific Ocean. "(2) The policy of both Governments influenced by any aggressive tendencies is directed to the maintenance of the existing status quo in the region above mentioned and to the defense of the principle of equal opportunity for commerce and industry in China."

"(3) They are accordingly firmly resolved reciprocally to respect the territorial possessions belonging to each other in said region."

"(4) They are also determined to preserve the common interests of all powers in China by supporting by all pacific means at their disposal the independence and integrity of China and the principle of equal opportunity for commerce and industry of all nations in that Empire."

"(5) Should any event occur threatening the status quo as above described or the principle of equal opportunity as above defined, it remains for the two Governments to communicate with each other in order to arrive at an understanding as to what measures they may consider it useful to take if the foregoing outline accords with the view of the Government of the United States."

"I shall be gratified to receive your confirmation."

High Figures Cause Rejection of Bids

Twenty thousand dollars discrepancy between the lowest bid and the estimated cost was responsible for the rejection of all bids submitted for the construction of a storehouse for the depot quartermaster's department here.

The estimated cost of the warehouse was placed at \$35,000 by the engineer who designed the proposed structure, and upon the estimate furnished it, the War Department authorities based their action in considering the bids.

The lowest bid submitted, that of Lucas Brothers of this city, was for \$55,000. The officials promptly threw out all bids and left the matter up in the air.

What action will be taken by the War Department in regard to the matter is not known. It is understood, however, that there is a general unwillingness to expend more money than the \$35,000 originally estimated.

Whether the great discrepancy between the estimate and the lowest bid was caused by an error on the part of the engineer who prepared the plan, or whether there was some misunderstanding on the part of the bidders, is not known. It is anticipated that the matter will be tied up for some time however.

The rejection of the bids, and the consequent delay in the beginning of work on the warehouse, is a disappointment to the local quartermaster's department. The building is needed badly, as the growth and importance of the local depot makes it essential that a suitable storehouse, with good storerooms and convenient offices, be provided at the earliest possible opportunity.
